

HANDMADE

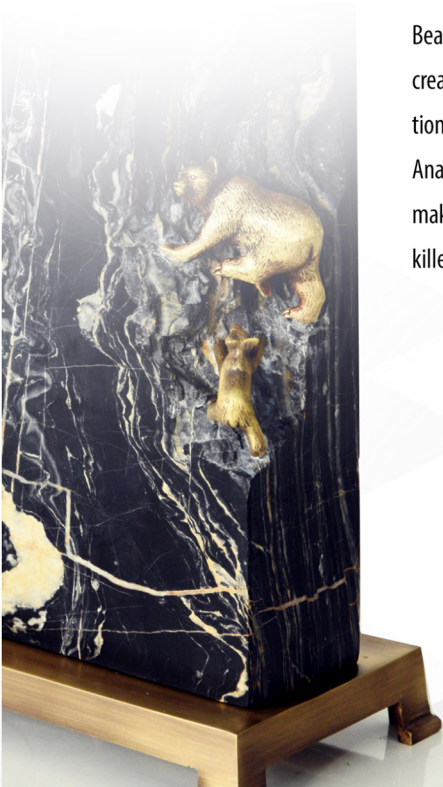

Story

Bear in Turkish Mythology Bear is a word that comes to mean "a creator, pro-creant and refresher" in Siberia in a reference to Gods and Goddess. Additionally, it was considered as an ancestor by some Turkish communities. In Anatolia, there were lots of foretell about a bear that abducts a girl and makes her its wife, who then gives birth to a bear-human. The girl's relatives killed the bear, but she mourned with her children for the bear

Story

Deer symbolize mother goddess. Hittites lived in Anatolia-Hattusas B.C. 2000s, near a province known as Çorum at the present time

Story

The Cult of the Mother Goddess is prevalent in worldwide. Even in modern times it shows itself as "mother nature." The basis of this global belief grounds in Anatolia. This goddess was initially worshipped in remote premises of Anatolia, which the continued to impress Hittites, Phrygians, Byzantine Empire, through which it has survived until today. What makes Goddess Cybele unique is the fact that she was the only Goddess that was worshipped all around Anatolia. Kybele (cybele) is known as 'Artemisia' in Greek mythology and as 'Diana' in Rome mythology

Story

Siyez, a wild wheat, which is a form of einkorn wheat or triticum monococcum or triticum boeoticum, was specified and cultivated nearly 10.000 year ago in the Near East. After DNA analyzes, Max Planck Enstitute in Germany detected that wild einkorn wheat (einkorn-Triticum monococcum subsp. boeoticum) which was found in piedmonts of Karacadag is ancestor of all einkorn wheats that is used in agriculture. Besides, it was understood that ancestor of durum wheat (triticum diccoides, emmer wheat) is grown in this mountain Karacadag
